

Recall on Surface Pro and Surface Laptop

Describe it to find it. With just a few words for context, find what you've seen or heard on your device using Recall.^{1,2}

Resume projects faster by searching across your personal timeline, apps, documents, communications, and services to find and predict the most relevant content.

Create and transform. Find the right content with Recall, and take quick action with helpful suggestions like copy, summarize, ask Copilot, translate, or start an email.

¹Some Copilot+ PC require download of free updates to run Copilot+ PC experiences, available starting late 2024 – 2025. [Learn more](#)

²Optimized for select languages (English, Chinese (simplified), French, German, Japanese, and Spanish). Content-based and storage limitations apply. [Learn more](#)

Make a bigger impact with AI on Surface Pro and Surface Laptop

Transform your writing. Make your words shine by drafting and editing email and other content with Copilot and get suggestions for revision. Create with confidence in Copilot shielded by commercial data protection.¹

Enhance communication. Understand almost any call, conversation, or recording with Live Captions^{2,3} from 44 languages into English.

Good looking videocalls. With automatic super resolution powered by the NPU, your Microsoft Teams videocalls will look great even with low bandwidth.

Have more effective meetings anywhere. With Windows Studio Effects, you can put your best face forward in videocalls with flattering portrait lighting, creative filters, natural eye contact and more, easily accessible in Quick Settings.

¹Copilot with commercial data protection is available at no additional cost for users with an Entra ID and an enabled, eligible Microsoft 365 or Office 365 license. | ²Some Copilot+ PCs require download of free updates to run Copilot+ PC experiences, available starting late 2024 – 2025. [Learn more.](#) | ³Currently supports translation for video and audio subtitles into English from 40+ languages. [Learn more](#)

What's new in Windows Studio Effects on Surface Pro and Surface Laptop*

Voice Focus Enhanced voice focus removes background noise for maximum clarity on video or audio calls.

Portrait Blur Apply a light blur so you're always in focus.

Eye Contact Maintain eye contact even when you're reading content on the screen, now enhanced.

Creative Filters Activate three different artistic filters in any video platform and access them in Quick settings: Illustrated, Animated, Watercolor.

Portrait Light Automatically adjust the lighting in video calls, in any app or video platform, to brighten yourself against the background.

*Enhancements and features exclusive to Copilot+ PCs

Microsoft Pluton Security Processor

The security chip designed for the future of Windows PCs

The latest Copilot+ PCs, Surface Pro and Surface Laptop, include a Pluton security processor to provide the highest level of Windows PC protection.

Designed by Microsoft, Pluton is integrated into the processor to deliver built-in, next-generation security.

Pluton receives its firmware and feature updates directly from Microsoft.
