

Isn't it time you made the move to modern endpoint management?

Microsoft Surface reduces endpoint-management complexities while helping to ensure that hybrid and remote workforces always have seamless, easy access to the information they need. The result? Modern endpoint management that helps you:

Increase efficiency

Streamline device deployment and management.

Reduce risks

Simplify endpoint management and enhance security capabilities.

Improve value

Save time and reduce complexity.

Organizations that implement Microsoft 365 Enterprise on Microsoft Surface devices realize a notable return on investment (ROI), according to a [Forrester Consulting Total Economic Impact study](#).¹

Value for IT

Deploying Microsoft Surface devices offers the potential to save time and reduce complexity so your employees can get the technology they need set up and running quickly.

4 hours saved

4 hours saved with each device deployed
IT departments saved 4 hours for each device deployed with Windows Autopilot and Microsoft Endpoint Manager.¹

67% reduction

67% reduction in help-desk support
IT help-desk call times decreased on average from 45 minutes to 15 minutes with Surface device deployments powered by Microsoft 365.¹

3.25 hours saved

3.25 hours saved deploying updates on Surface
IT teams faced fewer deployment challenges when Windows Update pushed patches to Surface devices powered by Microsoft 365.¹

Value for everyone

Microsoft 365 Enterprise on Microsoft Surface devices also has the potential to deliver value across your entire organization.¹

21% acceleration

21% acceleration in business decision making
With real-time access and collaboration, leaders substantially reduced decision-making time.¹

20% reduction

20% reduction in security breaches
Organizations were able to reduce the number of security breaches they experienced annually by about 20 percent for Surface device users.¹

80% reduction

80% reduction in security-breach remediation costs
Using two-factor authentication and Microsoft Advanced Threat Analytics, breach-remediation costs were reduced or eliminated using Surface devices powered by Microsoft 365.¹

It's time to make device endpoint management efficient, simple, and cost effective. It's time to make the move to modern endpoint management with Microsoft.
