

Tech for Social Impact

Skills training to transform your nonprofit

As a TSI partner, we know how much technology empowers nonprofits to become more efficient and productive in achieving their missions. With the right skills training and learning resources from Microsoft, we'll streamline your technology journey and help you navigate everything from digital transformation to hybrid work strategies using simple, cost-effective solutions.

Our goal is to make it easy for your staff and volunteers to deliver the greatest return for every donated dollar and focus on the most important work of (Partner Name) mission. To achieve this, we will guide you through a broad range of Microsoft training options and help you choose the ones that meet your organization's specific needs.

Training options

Technical Skilling

We can help you develop a plan to enhance your team's technical expertise on Microsoft platforms with a variety of learning components and industry-recognized certifications.

Microsoft Learn

We'll guide your organization through a comprehensive collection of up-to-date content and training options developed specifically for nonprofits to help your staff master new skills.

Microsoft Cloud for Nonprofit Skilling

Your IT pros and business users can unlock the value of Microsoft Cloud for Nonprofits with specialized learning paths for all aspects of nonprofit work, including fundraising and program delivery.

Nonprofit Technology Learning Center

Explore a rich collection of original research, insights, and assessment tools to better understand how to solve your biggest tech challenges.

Committed to understanding your needs and solving challenges, nonprofit partners have the expertise and passion to help your organization succeed.

Microsoft Technology for Social Impact**

Virtual Training Days

Your staff can learn new skills and save time with free, in-depth, virtual training events that cover a range of technical topics on the Microsoft products you use the most such as Microsoft Teams or Microsoft Azure. We can customize offerings to address your specific needs.

The Microsoft Digital Skills Center for Nonprofits

This platform empowers small nonprofits to unlock the power of technology for social good with courses designed to help your staff and volunteers learn how to get the most value from Microsoft tools.

Nonprofit Digital Academy

We can provide live, trainer-led courses that cover the most pressing issues for nonprofit frontline staff, including remote work, virtual meetings, cybersecurity, cloud storage, and more.
